## **Investo Linked Investment**

## **Investo Linked Investment**

Making conscious saving a priority now, actively shapes the life you want for tomorrow.

Every action—no matter how small—adds up over time, reducing pressure later, even for retirement. Saving for the future is simpler than you think. That is why the Investo Linked Investment that Momentum Savings offers is for growing your money over the medium to long term. You also want to adapt your investment to what you need and how much risk you can handle. You choose how long you want to invest to suit your goal and the investment options to grow your money. Whatever the legacy you want to leave, you want to tailor it your way.

But in the process, you want to use interest and capital gains tax exemptions to minimise the tax payable on your investment. You invest to make your money grow to have enough for your needs on your journey to success. We know your journey is unique – you may want to save for your children's education, a dream holiday or a nest egg for starting your own thing.

## How can the Investo Linked Investment help you?

You adapt the contract to meet your specific needs. You also choose how you would like to invest, and the most suitable investment options to achieve your goal. If your tax rate is less than 30% and you need more flexibility, you will choose a linked investment. You have access to the money but for the best results don't withdraw any.

## Is it for you?

An Investo Linked Investment is for you if you have medium- to long-term investment goals and want to invest a regular amount with an optional single contribution. It's also suitable if you want to use interest and capital gains tax exemptions to minimise the tax payable on your investment.

#### **Features**

The Investo Linked Investment gives you features to help you remain invested until the end of the product term:

- With the **enhanced allocation** we boost your savings by bumping up your regular contributions if they are above a certain amount.
- A **loyalty bonus** at the end of the product term, as well as every five years during the product term, pays back most of the administration fees to reward your commitment.
- You can take a **contribution holiday** when you need to skip contributions for a couple of months.

## When is it not for you?

This is not for you if you always want access to your money – the longer you leave your money, the more it can grow.

## How does it work?
