Momentum Safety Bonus with Safe Dayz™

Keep safe and earn up to 30% cashback with your Momentum Safety Bonus

Safe Dayz™, available at no extra cost on the Momentum App, uses innovative technology to record your driving behaviour, regardless of whether you're the driver, passenger or travelling by train, earning you one safe day if you score 80% or more, per day for driving safely according to the rules of the road.

You can also earn Safe Dayz™ for **non-travelling days, working from home or taking the Gautrain**, as long as the Momentum App is activated on the registered mobile device that you carry with you when travelling and the GPS on your mobile device is on.

With your Momentum Safety Bonus, you can earn up to **30% cashback** on your premiums every year, even if you claim. To qualify, download the Momentum App, register, activate Safe Dayz™ and start recording your journeys.

Your Momentum Safety Bonus earned every month is also dependent on:

- completing the Safety Score questionnaire annually and submitting the necessary validations, every year;
- the number of safe days awarded;
- whether you are a Multiply Starter or Premier member; and
- your Multiply status if you are a Multiply Premier client.

The Momentum Safety Bonus percentage is multiplied by the premium applicable for that month and these amounts accumulate on a monthly basis. The total amount accumulated is paid out in cash at the policy renewal yearly whether clients claim or not.

To earn maximum safety rewards, you will need:

Momentum Safety Alert

At Momentum Insure we not only care about your possessions, but we care about your safety and that of your loved ones too.

To ensure you and your loved ones are always protected we've created Momentum Safety Alert, a feature available on the Momentum App that transforms your mobile device into a panic button for unlimited use when you feel your personal safety, a family member's or even a stranger's safety is being threatened. We like to think of it as the "Don't Panic Button", that is provided to active policyholders at no extra cost.

Nominate an additional user - free of charge

Because we all sleep a little better knowing our loved ones are safe, as a policyholder you can nominate one additional user to access Momentum Safety Alert, free of charge.

The nominated user can be anyone from a minor, a family member, a friend and even your neighbour.

Designed with an interactive map and real-time messaging, Momentum Safety Alert allows you and your nominated user to track the responding vehicle's movement and receive a message with details of the responder, such as name, vehicle details and when he/she will arrive. We'll communicate with you until your alert has been resolved. Momentum Safety Alert has a network of more than 1 800 armed responders registered in South Africa for immediate assistance at the touch of a button.

Activating the panic button is as easy as:

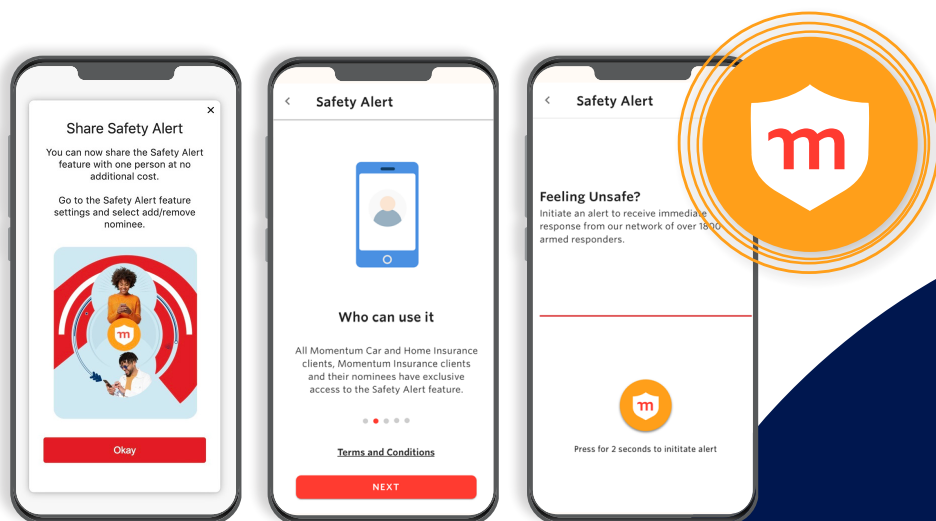

- Downloading the latest Momentum App.
- Following the on-screen app prompts.
- Confirming your personal details to complete setup.
- Select a nominated additional user.

Initiating an alert

When you or your nominated user feels that their, or someone else's, personal safety is being threatened, ensure that your GPS location settings are on, open your Momentum App, press and hold the Safety Alert button for two seconds to initiate the alert and help will automatically be dispatched to your last known location.

At last a panic button that you can take with you, wherever you might go.

Once you have initiated Momentum Safety Alert, details such as the name of the security company and a description of the vehicle of the emergency responder will be displayed on the app and you will also receive an SMS with this information.

See video on how Momentum Safety Alert keeps you safe on the Momentum YouTube channel.

Handbag cover

Only a brave few will venture into the bottomless pit that is a woman's handbag and for good reason. Maybe it's a natural instinct to always be prepared for anything but because you can find almost anything in a woman's handbag, which can often include items like a laptop, tablet, prescription glasses, etc, replacing these items can be quite costly. Momentum Insure's Handbag cover provides cover for loss or theft of a handbag and its contents. This cover is in addition to any other cover provided for the same property.
